

FISH4KENYA FUNDRAISER EVENT

Join us for an evening dedicated to celebrating the vital role of fish in our lives and supporting the legacy of Yukon Fisheries Biologist Susan Thompson through Fish4Kenya.

WHY FISH MATTER

Fish are more than just a food source; they connect us, enrich our cultures, and provide livelihoods. In the face of declining salmon stocks in Yukon, we must recognize the delicate balance of this ecosystem. Let's not take it for granted.

SUPPORTING FISH4KENYA

In 2005, Susan Thompson passionately initiated Fish4Kenya, a project aimed at advancing education, promoting gender equality, alleviating poverty, and establishing financial independence for Kenyans. Although Susan is no longer with us, her legacy endures.
